

# ELEMENTOS DE UNA PETICIÓN HTTP

```
GET /endpoint?QueryParam=ValueExample HTTP/1.1  
Host: example.com  
Content-Type: application/json
```

# ELEMENTOS DE UNA PETICIÓN HTTP

Method

```
GET /endpoint?QueryParam=ValueExample HTTP/1.1  
Host: example.com  
Content-Type: application/json
```

# ELEMENTOS DE UNA PETICIÓN HTTP

Path

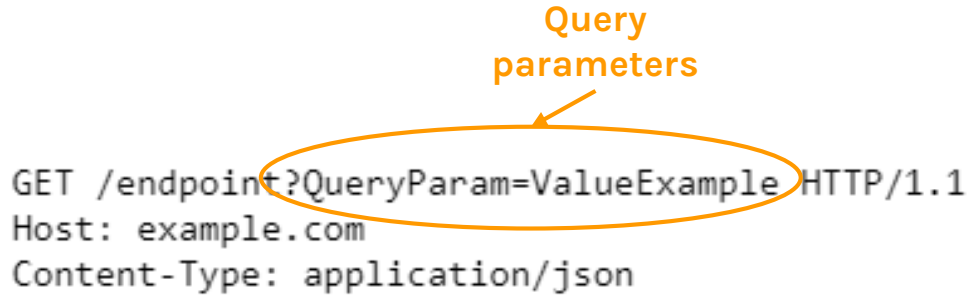

GET /endpoint?QueryParam=ValueExample HTTP/1.1  
Host: example.com  
Content-Type: application/json

The diagram shows the text 'GET /endpoint?QueryParam=ValueExample HTTP/1.1' with a green oval around the path '/endpoint?QueryParam=ValueExample'. A green arrow points from the word 'Path' above to the oval.

# ELEMENTOS DE UNA PETICIÓN HTTP

Query  
parameters

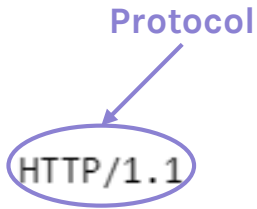

GET /endpoint?QueryParam=ValueExample HTTP/1.1  
Host: example.com  
Content-Type: application/json

The diagram illustrates the components of an HTTP request. The text 'Query parameters' is written in orange above the request line. An orange oval highlights the query string '?QueryParam=ValueExample' in the request line 'GET /endpoint?QueryParam=ValueExample HTTP/1.1'. An orange arrow points from the text 'Query parameters' to the highlighted query string.

# ELEMENTOS DE UNA PETICIÓN HTTP

GET /endpoint?QueryParam=ValueExample HTTP/1.1  
Host: example.com  
Content-Type: application/json

The diagram illustrates the components of an HTTP request. The text 'GET /endpoint?QueryParam=ValueExample HTTP/1.1' is shown. The 'HTTP/1.1' part is circled in blue, and a blue arrow points from the word 'Protocol' to this circled part. Below the first line, the headers 'Host: example.com' and 'Content-Type: application/json' are listed.
